

Money without *borders*. Access without *limits*.

Receive money from abroad, hold it in digital dollars, and collect it as cash from a shop near you.

Sending money home still costs *too much*.

6.36%

average cost of sending money across borders

① SOURCE: World Bank, Remittance Prices Worldwide (<https://remittanceprices.worldbank.org/>)
· Q3 2025

Global average total cost of sending the equivalent of US\$200.

3%

the UN's 2030 target for that cost. Today's average is more than double.

② SOURCE: United Nations, Sustainable Development Goal target 10.c (<https://sdgs.un.org/goals/goal10>) · adopted 2015, for 2030

77%

of adults in Lebanon have no account at a bank or mobile-money provider

③ SOURCE: World Bank, Global Findex 2025 (<https://www.worldbank.org/en/publication/globalfindex>)
· 2024 survey data
Account ownership was 23.0% of adults (indicator FX.OWN.TOTL.ZS).

From a transfer abroad to cash in *your hand*.

01 Receive

Money can come from family, a client, an employer or another compatible wallet. When it arrives, it shows in your balance.

02 Hold in dollars

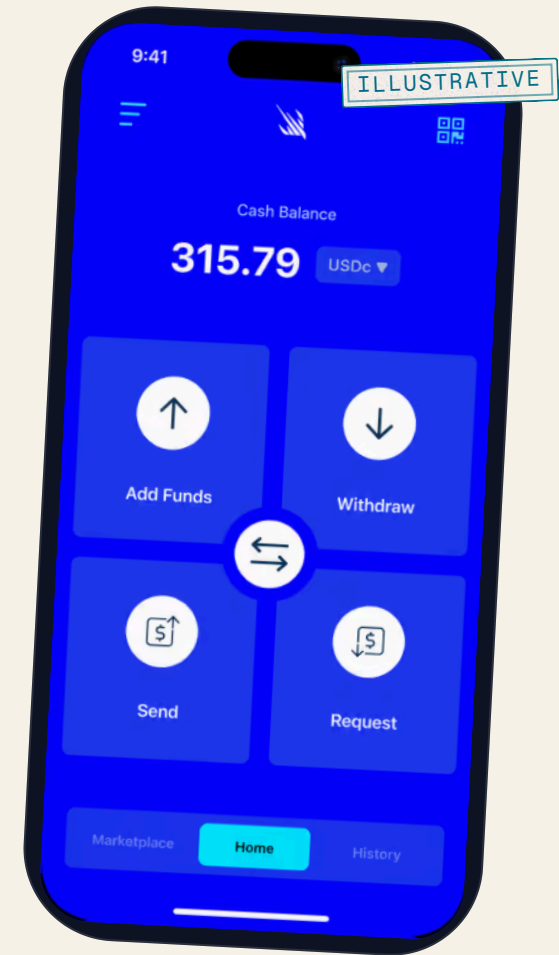

Your balance is held in digital dollars: a balance in US dollars, not in your local currency. You decide when to use it.

03 Send and pay

Send part of your balance to someone else, or pay directly from the app.

04 Cash out

When you need physical cash, ask for it in the app and collect it from a Connector: a local business in the Shaheen network.

Send

Request

Turn your shop into a cash access point.

Connectors are local businesses that hand out cash to Shaheen Money users in their neighbourhood, and earn on every cash-out.

Why shops join

01 Earn on every cash-out

You earn a commission each time you hand over cash to a Shaheen Money user.

02 More people through your door

Every cash-out is a customer in your shop.

03 Serve your neighbours

Give people nearby a way to receive money from abroad without a trip to a bank.

How to join

01 Apply online

Tell us about your shop. It takes about two minutes.

02 We review and call you

Our team reviews every application and contacts you on the number you give us.

03 Get set up

If your shop is a fit, we walk you through setup.

See the full cost *before* you send.

Receiving money	No fee
Sending money	No fee
Paying from your balance	No fee

01

Families

Your son sends money from Berlin. You collect it as cash down the street.

03

People abroad

You send support home. Your parents collect it where and when it suits them.

02

Freelancers

A client in Europe pays your invoice. You keep it in dollars until you need it.

04

Shop owners

Your shop becomes a Connector and earns on every cash-out it hands over.

“I founded Shaheen Money because I believe where someone is born should never determine the opportunities available to them. Our mission is to build financial infrastructure that connects people, communities and economies, not just accounts and transactions.”

MOATAZ ALOBAID · FOUNDER & CEO

01

Bankey

Our first venture, built to make everyday banking simpler through a digital-first experience.

02

Empowch

A company founded on inclusion: giving people and communities the tools to take part in the global economy.

03

Shaheen Money

As stablecoins and open payment networks matured, we set out to turn them into something people can use every day.
